Price: \$899 + GST

Overview

We believe our Voice Activated Recording Bug is the best covert voice recorder because it features:

Features

- ✓ Voice activation mode - so it only records when there is noise present around the bug
- ✓ 16 bit audio codec - which provides high quality recording
- ✓ Built-in AGC system - which allows record mode adjustment to the environmental conditions
- ✓ High sensitive microphone (10-12 metres)
- ✓ Small Size - 32mm x 12mm
- ✓ Long Battery Life - 130hrs in Record Mode / 480hrs in VAS Mode / 24 Months in Standby Mode
- ✓ Records up to 3 months of audio on a single charge
- ✓ Russian KGB technology
